

REMARKS

Applicants respectfully request that the resubmitted Listing of Claims be made part of the official record in the present application. The Notice of Non-Compliant Amendment states that "claim 1 has been amended and has not addressed all limitations originally presented. Claim limitation 'tracking a latency value...' presented in claim 1 of original list of claims has been omitted from the new listing of claims with [sic] being properly addressed." It is presumed that the Notice was intended to read that the cited element was omitted *without* being properly addressed.

The new Listing of Claims includes the element of "tracking a latency value for the transmitting of the multimedia data from the server to the first client," which was inadvertently and unintentionally omitted from claim 1, as amended.

Applicants respectfully request that the above described amendments be made part of the official record in the present application, and respectfully submit that support for the claim amendments and any new claims is present in the specification, claims, and drawings as originally filed, and that no new matter has been added.
